

**Westfield
Sportscars
Ltd.**

& manik
technologies

Thank you for your interest in becoming a Westfield Sportscars dealer. Our mission is to create a North American dealer network capable of providing Westfield customers with a superior experience in sales, service and support of our products.

We are always evaluating qualified dealer candidates located in major metropolitan markets and select U.S. Canadian and Mexican cities that are currently un-served or under-served by our existing dealer network. Each authorized Westfield dealer operates under a motor vehicle dealership sales and service agreement with Manik Technologies, LLC to retail Westfield Sportscars component kits, rolling chassis, accessories and replacement parts. Manik Technologies LLC is the exclusive North American import agent and master dealer for Westfield Sportscars Ltd.

Selection Criteria

There are several important qualifying factors to be considered for a new dealership, including financial capability and business background. Each new dealer candidate must possess a strong passion for the Westfield brand, along with a desire to establish a dealership in a location that is highly targeted in our market studies.

Our ideal dealer candidate will possess all of the following credentials:

- Leadership level experience in an established motorsports retail sales & service dealership;
- A verifiable track record of success in providing the highest level of customer service & satisfaction in a retail vehicle dealership business;
- The commitment and resources necessary to market & represent our products to a rapidly expanding and diverse customer population;
- Entrepreneurial excellence; and
- An outline business plan detailing sales targets, routes to market and methods of selling kits and cars.

The Evaluation Process

The first step to be considered for a new dealership is to complete the attached Dealer Application.

Please provide detailed information in every category of the application, as applicable. Place special emphasis on the narrative section of the application, which provides you an opportunity to tell us about yourself, your company and your proposed operation. We recommend that you print a copy of the completed application for your records prior to submitting it to Manik Technologies.

The Evaluation Process (cont.)

Each new dealer application will be thoroughly reviewed by a member of the Manik and Westfield Sportscars Dealer Development team. When we receive your application, we will:

- Respond to you via email to verify that we have received your dealer application;
- Research and rank your desired location for sales and market penetration potential;
- Review your skills, experience and credentials relative to our selection criteria noted herein;
- Identify the proximity of our current dealer network relative to your proposed dealership location;

If your credentials and location meet our selection criteria, you will be contacted by a member of our Dealer Development team to engage in further discussion about your application.

We trust you understand that under no circumstances does the submission of your dealer application to Manik Technologies or Westfield Sportscars, or its subsequent review and processing, imply, in any manner, our intent to accept you as a dealer and enter into a Dealer Agreement with you. Manik does not sell this database. You will not receive junk mail based on your submission.

Investment Requirements

The investment requirements vary greatly based on location, facility, permits, signage, point-of-sale system, adequate operational cash reserves and other start up costs. Manik Technologies does not require a fee for obtaining a Westfield dealership.

Once again, thank you for your interest and passion for Westfield Sportscars. We look forward to receiving your dealer application.
